

ABHISHEK VILAS PATADE

Principal Product Designer | UX Strategy Leader | 18+ yrs Enterprise SaaS, BFSI & Insurtech | AI-Powered Design | Design Systems & Accessibility

+91 99674 53818 · abhipatade@gmail.com · [linkedin.com/in/abhipatade](https://www.linkedin.com/in/abhipatade) · [Portfolio](#) · Navi Mumbai, India · Open to Remote / Hybrid / India

PROFESSIONAL SUMMARY

Principal Product Designer and UX Strategy leader with 18+ years building enterprise SaaS, BFSI, Insurtech and compliance platforms — from discovery and research through scalable design systems and production-ready delivery. Experienced managing and mentoring designers, influencing product roadmaps at the executive level, and partnering with Product, Engineering and Compliance. Active practitioner of AI-powered design workflows: Figma AI, Claude MCP, Figma Make, Cursor and V0 by Vercel.

CORE SKILLS

UX & Product Leadership: UX strategy & roadmap planning · team leadership & mentorship · executive stakeholder management · design governance · design-thinking facilitation · Agile / Scrum / PI planning

User-Centred Design: user research & personas · journey mapping & task flows · usability testing · heuristic evaluation & UX audits · accessibility (WCAG 2.1 / 2.2 AA) · information architecture · MVP strategy

Design Craft: high-fidelity UI & prototyping · micro-interactions · responsive web & mobile · design systems & component libraries · design tokens & variable theming

Tools: Figma, FigJam, Sketch, Adobe XD, Axure RP, Illustrator, Photoshop · Jira, Confluence, Notion, Miro · AI: Figma AI (Make / Slides / Design), Figma MCP, Claude MCP, V0, Cursor, GitHub Copilot, Midjourney

Domains: Enterprise SaaS / PaaS · BFSI · Insurtech (P&C, L&A) · Compliance & Risk · Cybersecurity · Healthcare · Telecom · Cloud-native platforms (AWS, Azure)

PROFESSIONAL EXPERIENCE

Independent Product Design Consultant · Self-employed

Jan 2026 – Present

Navi Mumbai · Remote

Product design and UX consulting for Enterprise SaaS, BFSI, Compliance and AI-enabled products.

- Lead UX strategy, product discovery and experience design; design scalable workflows, dashboards and enterprise applications.
- Facilitate stakeholder workshops and requirements gathering; create user journeys, wireframes, prototypes and design systems in Figma.
- Conduct UX audits, heuristic evaluations and usability improvements; advise on product modernisation and digital transformation.
- Deliver with AI in the loop — Figma AI, Claude MCP, Figma Make, Cursor — from strategy to accessible, shippable builds.

Clients: Mirello (fit-first hiring platform — strategy, design system and live demo, POC) · Tarurveda Xtracts · Acharya Gautam / Astrovaitya

Product Designer · LRN

Sep 2023 – Nov 2025

Mumbai · On-site

Led end-to-end UX strategy across LRN Catalyst, a compliance and risk-management SaaS platform used by 3,000+ organisations — Client Onboarding, User Manager, Campaign Manager, Phishing Simulation, Content Library and Reveal Analytics — for enterprise clients across North America and Europe.

- Owned UX for the Phishing Simulation product (0 → 1): redesigned the campaign workflow, built a reusable template library (50+ templates) and improved admin task completion across multiple personas.
- Led UX for Client Onboarding, User Manager and Campaign Manager; designed Reveal Analytics dashboards covering click rates, report rates and risk scores.
- Built a modular design system of 60+ reusable components across the Content Library and core modules, improving cross-product consistency and cutting design-to-dev handoff time.
- Conducted UX audits across 8 core platform workflows and led resolution with Product and Engineering.
- Managed and mentored 2 junior designers; partnered with global Product, Engineering and Content teams across 3 time zones.

Product Designer · NTT DATA (FA Insurance)

Dec 2021 – May 2023

Bengaluru · Remote

Delivered UX design across Policy Management, Claim Management, the API Platform and Client Tracker for global insurance clients.

- Led UX for Policy and Claim Management workflows, plus the API Platform and Client Tracker modules, across multiple global insurers.
- Simplified complex insurance workflows for insurer clients across North America, APAC and Europe.
- Adapted UX patterns to regional regulatory and workflow requirements during large-scale platform implementations.

Clients: Global P&C and L&A insurers across North America, APAC and Europe

Product Designer • Majesco

Oct 2018 – Dec 2021

Mumbai • Hybrid • 3 yrs 3 mos

Led UX across Majesco's cloud-based insurance suite — Policy Management, Claim Management, the API Platform and Client Tracker — spanning 5 products on an Agile PI planning cycle.

- Built and scaled a multi-product design system across the 5-product suite, standardising UI patterns for Policy, Claims, API Platform and Client Tracker (Jul 2020 – Dec 2021).
- Travelled onsite to the US to facilitate UX workshops with product owners and SMEs — defining user journeys, running usability sessions and influencing product strategy decisions.
- Delivered PI-ready designs consistently ahead of development cycles, enabling faster QA and fewer late-stage changes.
- Led discovery-to-delivery UX for 3 new product modules — journey mapping, wireframing, prototyping and handoff — and laid the early design-system foundations (Oct 2018 – Jul 2020).

Products: Majesco Policy • Claims • API Platform • Client Tracker • Agent 360 — for P&C and L&A insurers

Senior User Experience Designer • Cognizant

Jun 2014 – Oct 2018

Mumbai • 4 yrs 5 mos (UX Designer 2014–17, Senior UX Designer 2017–18)

Led UX strategy and execution for banking and insurance clients across BFSI, Insurtech, Healthcare and Telecom engagements.

- Led end-to-end UX engagements from discovery and research through MVP and POC delivery; facilitated design-thinking workshops and stakeholder alignment for multiple transformation programmes.
- Contributed UX inputs to RFP proposals and pre-sales pitches, supporting new project wins in BFSI and Healthcare.
- Simplified enterprise information architecture and workflow design across banking and insurance platforms; partnered with SMEs, business analysts and engineering leads.
- Earlier: designed wireframes, user flows and high-fidelity UI for enterprise projects; supported research and usability testing with real users.

Clients: Kotak Mahindra Bank • Prudential Insurance • ICICI Bank • Franklin Templeton

EARLIER EXPERIENCE

Lead Designer, Grass Roots • 2013 – 2014 Sr. Web Visualizer, Inspira Enterprise • 2011 – 2013 Web Analyst, iGATE • 2008 – 2011 Senior Web Designer, Zwa Designs • 2007 – 2008

SELECTED WORK

Phishing Simulation — LRN Catalyst: 0 → 1 enterprise product: campaign workflow, 50+ template library, behaviour analytics. [View case study](#)

Mirello — Fit-First Hiring Platform (POC): product strategy, design-system foundations and an accessible live demo built in one sprint with Claude AI. [View case study](#)
