+91 99674 53818 / abhipatade@gmail.com / [linkedin.com/in/abhipatade](https://www.linkedin.com/in/abhipatade) / [Portfolio](#) / Airoli, Navi Mumbai, India
Available: Remote / Hybrid / India

PROFESSIONAL SUMMARY

Principal Product Designer and UX Strategy leader with 18+ years building enterprise SaaS, BFSI, Insurtech, and compliance platforms — from discovery and research through scalable design systems and production-ready delivery. Experienced managing and mentoring design teams, influencing product roadmap at the executive level, and partnering with Product, Engineering, and Compliance. Active practitioner of AI-powered design workflows including Figma AI, Claude MCP, Figma Make, Cursor, and V0 by Vercel.

CORE SKILLS

UX & Product Leadership: UX Strategy & Roadmap Planning, Team Leadership & Mentorship, Executive Stakeholder Management, Cross-functional Collaboration, Design Governance, Design Thinking Facilitation, Agile / Scrum / PI Planning

User-Centred Design: User Research & Persona Development, Journey Mapping & Task Flows, Usability Testing, Heuristic Evaluation & UX Audits, Accessibility (WCAG 2.1), Information Architecture, MVP Strategy

Design Craft: High-Fidelity UI & Prototyping, Micro-interactions & Animation, Responsive Web & Mobile UX, Design Systems & Component Libraries, Design Tokens & Variable Theming

Design & Prototyping Tools: Figma, FigJam, Sketch, Adobe XD, Axure RP, Adobe Illustrator, Adobe Photoshop

AI Design Tools: Figma AI (Make / Slides AI / Design AI), Figma MCP, Claude MCP (Anthropic), V0 by Vercel, Cursor, GitHub Copilot, Midjourney

AI Assistants: Claude (Anthropic), ChatGPT, Gemini, Perplexity

Collaboration Tools: Jira, Confluence, Notion, Trello, Miro, Microsoft Teams, Slack

Domain Expertise: Enterprise SaaS / PaaS, BFSI, Insurtech, Compliance & Risk Platforms, Cybersecurity, Healthcare, Telecom, Cloud-Native Platforms (AWS, Azure)

PROFESSIONAL EXPERIENCE

Independent UX Consultant — Current Role Self-Employed

Jan 2026 – Present
Navi Mumbai / Remote / Freelance

Principal-level UX consultancy across enterprise SaaS, BFSI, Insurtech, and compliance domains.

- Provide UX strategy, research, and design services to product teams across enterprise SaaS and fintech.
- Design and audit design systems, component libraries, token structures, and governance frameworks.
- Apply AI-powered tools — Figma AI, Claude MCP, Figma Make, Cursor — to deliver high-fidelity prototypes and design documentation.
- Conduct UX audits, heuristic evaluations, and usability research for client engagements.

Principal Product Designer LRN Technologies & Content Solutions

Sept 2023 – Nov 2025
Mumbai / Hybrid

Led end-to-end UX strategy across LRN's compliance and risk management SaaS platform — Client Onboarding, User Manager, Campaign Manager, Phishing Simulation, Content Library, and Reveal Analytics — serving enterprise clients across North America and Europe.

- Owned UX for the Phishing Simulation product, redesigning the campaign workflow and improving admin task completion across multiple user personas.
- Led UX design for Client Onboarding, User Manager, and Campaign Manager, and designed Reveal Analytics dashboards covering click rates, report rates, and risk scores.
- Built a modular design system with 60+ reusable components spanning the Content Library and core product modules, improving cross-product UI consistency and cutting design-to-dev handoff time.
- Conducted UX audits across 8 core platform workflows, identifying friction points and leading resolution with Product and Engineering.
- Managed and mentored 2 junior designers through critique sessions and structured growth plans; partnered with global Product, Engineering, and Content teams across 3 time zones.

Senior Product Designer NTT Data – FA Insurance

Dec 2021 – May 2023
Bengaluru / Hybrid

Delivered UX design across Policy Management, Claim Management, the API Platform, and Client Tracker for global insurance clients.

- Led UX design for Policy Management and Claim Management workflows, plus the API Platform and Client Tracker modules, across multiple global insurance clients.
- Traveled onsite to the US to conduct UX workshops with client stakeholders, defining user journeys, running usability sessions, and aligning product direction.
- Simplified complex insurance workflows for global insurer clients across North America, APAC, and Europe.
- Adapted UX patterns to regional regulatory and workflow requirements during large-scale platform implementations.

Senior Product Designer

Oct 2018 – Dec 2021

Majesco

Navi Mumbai / Hybrid

Led UX across Majesco's cloud-based insurance suite — Policy Management, Claim Management, the API Platform, and Client Tracker — spanning 5 products on an Agile PI planning cycle.

- Built and scaled a multi-product design system across Policy Management, Claim Management, the API Platform, and Client Tracker, standardising UI patterns across the 5-product suite.
- Traveled onsite to the US to facilitate UX workshops with product owners and SMEs, influencing product strategy decisions.
- Delivered PI-ready designs consistently ahead of development cycles, enabling faster QA and fewer late-stage changes.
- Led discovery-to-delivery UX for 3 new product modules — journey mapping, wireframing, prototyping, and handoff.

UX Lead / Senior UX Designer

Jun 2014 – Oct 2018

Cognizant

Mumbai / Work From Office (WFO)

Led UX strategy and execution for banking and insurance clients — Kotak Mahindra Bank, Prudential Insurance, ICICI Bank, and Franklin Templeton — spanning BFSI, Insurtech, Healthcare, and Telecom engagements.

- Led end-to-end UX engagements for banking and insurance clients — Kotak Mahindra Bank, Prudential Insurance, ICICI Bank, and Franklin Templeton — from discovery and research through MVP and POC delivery.
- Facilitated design thinking workshops and stakeholder alignment sessions for multiple transformation programmes.
- Contributed UX inputs to RFP proposals and pre-sales pitches, supporting new project wins in BFSI and Healthcare.
- Simplified enterprise information architecture and workflow design across banking and insurance platforms; partnered closely with SMEs, business analysts, and engineering leads.
